OCCULT VISION.

Reflections of Arthur Middleton, Seer and Philosopher.

ON WEST VIRGINIA RESULTS.

Seven Years Ago Ills Perspicacity Led Him to Predict that the Mountain State Would Give an Irreducible Republican Majority Within Pive Years-How It Came About-The State House Ring and Its Overthrow-Puture of Those Sterling Democrats who Placed Patriotism Above Partisanism.

Special Correspondence.
GALLIPOLIS, Ohlo, Nov. 9.—After the toil, turmoil and turbulence of the late election was over and enough was learned for one to know that patriotism and honesty was in the lead and the heresles of Popocratism was downed, at least for the four years to come, I dropped down to this ancient city of the ancient Gauls with its Greek suffix to rest and ponder over how much noise the noisy and irrepressible element of American society could make enough to scare all the sound money Democrats into loading their guns with blank cartridges and shooting with the whip-line crack of the deadly Kentucky whij-line crack of the deadly Kentucky rifte. Gallipolls is noted for several things. One is that it is the second oldest town in Ohio. Another is that it was first settled by a company of French artisans over one hundred years ago. The names of the latter are still to be found among fhose of many of its clizens. For many years its merchants trived and waxed fat off their extensive Virginia trade until Charleston wrested it from them. Then it extensive Virginia trade until Charlestion iwrested it from them. Then it
stack in the shoals of dull trade, but is
now doing a thriving business and is
one of the most pleasant places on the
Ohlo river to live—being neathersa and
healthful, with unsurpassed educational
and social advantages. When the contemplated Ohlo river improvement
goes through it will be on a healthy
boom.

Old West Virginia has at last placed herself squarely and fairly in the Republican column. It is not in a spirit of egotism that I call the attention of the readers of the Intelligencer to the fact that it is now about seven years since I wrote my first-Arthur Middeton leiter, and in that letter I made the prediction that in less than five years West Virginia would give a Republican majority of at least 15,000. Five years after it gave a Republican majority of 15,000, less four hundred. In that same letter I said that Hon, G. W. Atkinson would be the first, next, Republican governor of the state. I judged the people and the party correctly. And after the fourth of March the state will have a chief executive who did not destroy the honor of the position by purchasing it. To be governor of one's native state is indeed an honor and to, have a governor who is able, courteous and honorable will be an honor that has been conferred on West Virginia, not to exceed more than thrive in its history. There are two Governor Atkinsons in these United States, and if the other one is of the same mental and moral calibre of the one who will execute the affairs of West Virginia for the next four years, it would be to the everlasting credit of the people if they were to elect a few more of the same kind and name. There are good men—able, pure and efficient in the various parties in West Virginia, but to-day Governor-elect Atkinson is the strongest man before the people, of all parties. He is a native of his state, which is more than has been the majority of the governors of the past.

I wonder how the state house ring feels? The Chiltons must be dreadfully Old West Virginia has at last placed

I wonder how the state house ring feels? The Chiltons must be dreadfully sore—sore all over—not that their egotism or self-conceit has been injured. It is fire, water and election proof. A man has to own brains before his bead can be made sore. The fact that it has been their boyish, inefficient and corrupt methods—their duliness, lack of penetratism, self-conceit and general unfitness which has done more to make West Virginia Republican than any one thing, has not nor ever will enter their craniums. I forgot and started to say their brains, Their soreness will come from loss of official salaries. No longer can they live cosily off of other men's work. Any keen observer would never bet on a party that had for its managers such men as ran the present campaign. When it can raise no better timber for the pilot-wheel, what clse but rottemess can lurk in its hulk. It has been my information that Secretary of State Chilton, who is required to give a bond of \$100,000, approved by the governor upon his induction into office, had not done so up to July I, last.

Well, the Democratic party or the Poperatic party of West Virginia is dead and on the fourth day of March it will be buried, much to the gratification of all men whose moral olfactories abhor the stench of corruption. I wonder how the state house ring

It will be noticed that while Gover-nor-elect Atkinson ran way ahead of McKinley in the state he ran behind in Kanawha county. This was occasioned by his being scratched by the so-called Independent Republicans, because he would not permit himself to be drawn into the family quarrel in Kanawha. Prom investigation I am lead to be-dieve that several hundred so-called Republicans scratched him, but his Democratic admirers, even though sit-ver men, brought him up above the Republicans scratched him, but his Democratic admirers, even though silver men, brought him up above the average. I notice that Mr. Atkinson ran ahead of his ticket in many counties where I had the honor to do some missionary work, especially in Monroe, where the Democratic ring attempted personal abuse through a Popocratic paper, Atkinson ran nearly one hundred ahead of his ticket. I am sorry the aforexid ring did not keep up its lying abuse.

One thing is patent and that is that the best blood and brains of the Democratic party helped elect McKinley, and that the party is rent asunder from Dan to Hersheha. What will begine of the old-time honored Democratic party? I make the prediction that as long as the Republican party does not attempt to make a prohibitory tariff—and with this fresh infusion of former Democrata, I do not holleve they want to, will or can—the sound mency Democrats will become Republicans, while the Populists will prostitute the history of the Democratic party by assuming its name. It is almost pathetic to think of the old Democracy having to give up its name, ausciated with all that is good in government policy, to a lot of dissatisfied, victous and visionary men. Their next national convention will attempt to foster the subtreasury scheme, government ownership of railroads and other paternal and visionary schemes to the Democrats who believed in free colunge. This will again dizrupt the party and tend to make two great parties—one. crats who believed in free colunge. This will again disrupt the party and tend to make two great parties—one of cranks and chroate grumblers and the other of business and brains. I hope this may not come to pass, as it takes two great and well-balanced parties to ensure the safety of a republic. Suppose the cranks and their unscrupulous leaders would get in the majority. Let's down the vile and trust in Providence.

Alack.alast I suppose after the fourth Ainck, alast I suppose after the fourth of March I shall have to sheathe my pen and go the sword or plowshare, as there will be no more Democratic corruption in the state—at least there will be none in public life, which is alone upon public pruning. Hut even if I have been probing the public boils for seven years I, can 4sy down my lance forever and aye with the happy

thought that the body politic of this state has taken enough blood purifier to cleanse it of its corruption and that the dose was given by the people.

ARTHUR MIDDLETON.

KNIGHTS OF LABOR.

General Assembly Proceedings - Came Out for Prec Silver. ROCHESTER, N. Y., Nov. 11.—At to-

day's session of the general assembly. Knights of Labor, a few more delegates

Knights of Labor, a few more delegates were present than at the first day's session. It is believed on the outside that the proposition to take window glass off the dutable list will meet strong opposition from some of the delegates.

The annual report of Secretary-Treesaurer J. W. Huyes opens with reference to what he terms "attacks of a most villainous character" upon the general officers of the order, "by reason of the just stand taken by them in refusing to allow a small clique of men, who were famillarly known as the "New York triangle" of the socialist labor party, to get control of the machinery of the Knights of Labor for the dissemination of their doctrines."

The so-called triangle, according to Mr. Hayes, consists of Deniel DeLeon, Lucien Sanial and Ernest Rohn.

An important recommendation follows in reference to local assembly 300, "Since the New Orlehns session of the general assembly, local assembly 300, through the delegates who represented the local assembly, were continually threatening to withdraw from the order; giving as their reasons a feeling of distrust of urgent officers in the proper use of the funds. The true state of the case, however, is that local assembly 300 has a large amount of investment in glass stock, gas stock and defunct banks and 350,000 in cash. A quarrel among the membership as to who should preside over the dealerations of the organization and dispose of the funds referred to, which in reality is the main cause of the trouble."

The report recommends that "The general executive board be instructed as a legislative committee, to urge that, instead of a prohibitory tariff on glass the tariff be transferred to the lumigrant glassworker, so that the industry-shall be retained in control of the native workman and the foreign workman kept where he properly belongs."

The master workman, Sovereign, says the Knights should abandon alt Utoplan plane and center their efforts at follows:

"I would so change and abbrevlate our present test of membership as to center our immeante demands upon an equitable income tax, the free and unlimited colnage of silver at the present legal ratio, the payment of all government bonds according to present contract, and the issue of all the money of the country. I would make positive and unequivocal declarations against government by injunction, increase of the standing army, the payment of bended debt in gold alone, the issues of bonds in times of peace and the issue of circulating notes by vanking corporations, than we now have, establish a degree known as the minute men and as far as possible return to our former system of working in absolute secreey.

"I would then appeal to the free silve and reform forces

for land reform nor from any of the other great principles contained in the preamble of this order, but I would des ignate them as battle grounds to be fought over after we have throttled the fought over after we have throttled the life out of the money power that is undermining the foundations of American liberty. It may be said that by accepting this issue we would be charged with favoring the silver mine owner in the Rocky mountains. The charge would not be true, and if it was I have only to say that I would a thousand times rather cast a thousand votes for a mine owner in the Rocky mountains who employs labor, and contributes to the wealth of my country, than to cast one vote for a foreign shylock who conspires to rob the labor of the world.

"I appeal to the delegates here assembled to place a demand for the free coinage of silver at the present legal ratio in our preamble and bar our ports and clear our decks for action against the plujocracy combine arrayed on the

the plutocracy combine arrayed on the side of the single gold standard."

Sparagus Kidney Pills Are on the Tidal Wave of Popularity in Wheeling.

The Sale of Them Continues Enormous and Unprecedented.

ONE HUNDRED AND SEVENTEEN BOXES SOLD YESTERDAY.

The Retail Drug Trade Scarcely Able to Keep Them in Stock.

The retail drug trade of this city report the demand for Dr. Hobbs Sparngus Kidney Pills as being simply mous. Not only is this demand large in Wheeling, but it applies as well to all towns surrounding us. Everywhere Dr. Hobbs Sparagus Kidney Pills seem to be in general demand.

The medical fraternity look on with wonder at the cures daily made by this remedy. A physician was recently over-heard to say: "I have never in my life heard to say; "I have never in my life had faith in anything advertised as a medicine until recently, but I must confess that I really do believe that Dr. Hobbs Sparagus K.dney Pills are a remedy of great worth. I got a sample box of these pills and used them in my practice. Several of my patients have been taking them, and have experienced a great change for the better.

The physician who made this remark hast ixte lidea that it would ever appear in print. At all events, he deserves great-credit for his frank and honest confession.

A Miracle. A Remarkable Cure of Dropsy After Five Years of Agony. 29 Fonda St., Williamsport, Pa., March 7, 1896.

Hobbs Remedy Co., Chicago:
Gentlemen:—Some five years ago my
wife, Mrs. Charles H. Hall, now fiftyfive years of age, was taken with dropsy
and heart trouble, growing worse from
month to month. Two years ago she
was so sick that she was compelled to
stop work of every kind. The best physicians in this city were secured, but
she grew worse so rapidly and her heart
so bad, that a year ago they said nothing more could be done for her, as death
was liable to come at any time.

At this time she measured ten feet
around the waist, and weighed over 390
pounds. Owing to her heart trouble, the
doctors would not tap her, only to keep
her from bursting. These operations did
no good, as they falled to get a drop of
water from her, chalming that it was in
sucks, all over her body, and they
couldn't reach it. For four months she
could heither lie down nor walk. The
longest eleep she had during that time
was twenty-five minutes. The smallest
cracker would distress her so that she
could hardly breather, yet she dare not
take stimulants. Her suffering was so
terrible that she prayed day and night
for death to relieve her from her mistake stimulants. Her suffering was s terrible that she prayed day and nigh for death to relieve her from her mis

for death to relieve her from her miseries.

Her kidneys did not act mere than one gill in forty-eight hours, and then thick with brick duet. Her bowels could only be moved under the most wretched powerful catharties prescribed by the physician. About this time I saw an advertisement of Dr. Hobbs Sparagus Kidney Pills in the Williamsport Sun. I determined to try a box. My wife objected to my spending any more money on her, as she felt that she was past all help. However, she began taking them at once, The fourth day they began to do their work, when she passed two gallons of water in twenty-four hours. I then got some of Dr. Hobbs Little Liver Pills, and they did their work equally as well. After using eight loxes of Dr. Hobbs Sparagus Kidney Pills she is reduced to her normal weight of about 145 pounds. She has a good appetite and is doing her own work. People who knew how near she was to death's door pronounced her case nothing less than a miracle.

She is certainly a living monument to the inestimable worth of Dr. Hobbs Sparagus Kidney Pills and Little Liver Pills. I am thankful to God and your

But Very Little Fire-Rumors About

Archbishop Ireland.
PHILADELPHIA, Nov. 11.-From eminent ecclesiastical authorities having sources of official information it is learned that the attention of Rome has been called in an indirect manner to a sermon delivered by Archbishop Ireland at Washington, on the occasion of the consecration of Bishop O'Gorman. In this sermon the archbishop referred to the bishops as the main strength of the Catholic church. As the Jesuits and other regilions haves no bishops,

and other regilions haves no bishops, the expression was construed to be a reflection on the ordera.

It is not known that the sermon was officially communicated to Rome, but it is certain that it reached there and has been the subject of recent adverse comment in the Civita Catolica, the organ of Jesuita at Rome, of which the Rev. Brandl is editor.

The paper, while unofficial, as representing the views of the Vatican, has an influence, and at the time of Archishop Ireland's visit to Rome on the Farribault school question, this influences was directed against the views he represented. From the recent publicity at Rome of the properties of the recent publicity at Rome of which the recent publicity at Itome siven to the Ireland sermon, it is the judgment of those in a position to understand the facis that this is the basis for the reports from Rome that Archishon Ireland will be augmented.

to understand the facts that this is the basis for the reports from Rome that Archbishop Ireland will be summoned there and removed.

It is believed that the Pope's decision will be adverse to those seeking Ireland's removal. Further than this there has been nothing from Rome to indicate the displeasure of the Pope and others in authority. The archbishop's advocacy of McKinley's election has not figured in the matter.

An Abined Romer.

ST. PAUL, Minn., Nov. 11.-When Archbishop Ireland's attention was called to-day to the published rumor that his recent utterances were disthat his recent utterances were dis-approved at Rome, and that he would be removed from the zee of St. Paul, he refused to dignify the rumor by mak-ing a statement in regard to it, laugh-ing away the whole metter as un-worthy of notice. From those near the archbishop, however, the brief state-ment that the rumor was an absurdity and unworthy of any credence or notice was secured. They were unable to say or imagine from what the rumor greey, and beyond declaring it an absurdity would say almost nothing.

A True Maxim.

Nothing succeeds like success, is a maxim well applied to Dr. Bull's Cough Syrup, for this famous remedy succeeds in curing every case of croup, cough and cold which it undertakes, and to this alone is due its wonderful popularity. Mrs. E. W. Richards, 2214 E. Cumberland St., Philadelphia, Pa., states: "I have had Dr. Bull's Cough Syrup on my bureau for the last nine years, and have found it a certain and safe cure for croup.
